

Automatically hide and show sections using restrict access

Last Modified on 04/02/2020 3:59 pm AEDT

If you want to hide a section (eg "Monday" or "Skill Builder") so students can't see it or access it until a chosen day and time, use "Restrict access". Go to what you want hidden - the "section". Choose "Edit section". Choose "Restrict access". Choose "Date". From the drop down menus select the date and time (the time that you want this section to be visible to students from). Add more restrictions if you want to. Finally save your changes. There are a number of items you can restrict access on, but date is the simplest and most common for WBT.

From the "Add restriction ..." menu choose "Date".

Add restriction...

Date

Require students to complete (or not complete) another activity.

Prevent access until (or from) a specified date and time.

Require students to achieve a specified grade.

Control access based on fields within the student's profile.

This course item will not be available to students until the student acquires a specific release code.

Add a set of nested restrictions to apply complex logic.

Cancel

Select the date and time.

Restrict access

Access restrictions

Student must match the following

Date from 4 February

2020 00 00

Add restriction...

Hide and unhide by clicking the eye. For content to be hidden *until* the date entered. The eye must be crossed.

Restrict access

Access restrictions

Student must match the following

date from 4 February

2020 00 00

Add restriction...

Keep adding restrictions until you have finished for that section. Then "Save changes".

Restrict access

Access restrictions

Student must match all of the following

Date from 4 February

2020 00 00

and

Date from 4 February

2020 00 00

Add restriction...
